- LOCATIONS FROM SOUTHAMPTON TO LEICESTER
- ALWAYS FAST TRACK
- PROJECTS FROM £5,000 TO £500,000
- CONCEPTUAL DESIGN FOR PAN-EUROPEAN CENTRES

CASE STUDY

WHAT'S THE STORY...

Regus are the most recognised name in serviced offices, virtual offices and meeting facilities.

We first worked with Regus in 2009. It was a challenging project to create a new centre in Forum 3, Southampton. Deep space with limited mechanical capacity. We think it went well having subsequently carried out over 30 refurbishment and fit out projects.

Regus use both the '**Blue**' and the '**Jelly**' side of our services. We created the benchmark design for 'out of central London' centre refurbishments. Working on the new vision for centres we have also created a showcase creative workplace in the Slough Head Office.

On the '**Blue**' side, Regus always need early knowledge of project budgets and timescales. Refurbishment projects need careful implementation, planning, stringent Health and Safety and a friendly, experienced team.

What next? Opening new centres in service stations and shopping centres! Then rolling out the new concept suites, to set the standard on the way we will work and continue to change.
