- DILAPIDATIONS AND REFURBISHMENT OF 48,000 SQ FT IN THE SOUTHAMPTON
- VARIOUS REGIONAL OFFICES INCLUDING CHELTENHAM AND EXETER
- WORKING WITH INVESTEC'S APPOINTED PROJECT MANAGERS AND WORLDWIDE ARCHITECTS

CASE STUDY

WHAT'S THE STORY...

Our first project for Investec, the specialist bank and asset management company, was the refurbishment of a 48,000 sq ft building in Southampton.

The result of one of their company acquisitions, Forum 3 needed stripping out and refitting for letting. We worked well together. A very knowledgeable client wanting an honest and experienced approach.

Since then we have carried out projects from the straight forward 3,500 sq ft regional office in Cheltenham to the 24,000 sq ft refurbishment, reconfiguration and fit out of the Reading support office.

Our most recent project illustrates the trust Investec have in the Blue Jelly delivery. Working with their worldwide professional team of architects and project managers, we were appointed to refurbish the main client meeting and dining suite in the HQ at Gresham Street. Discreet working, strict security and fabulous finishes. A test for the *Blue* side of Blue Jelly.
